Environmental Policy

Visible Fictions is committed to reducing the impact that its projects and operations have on the environment and to ensure it achieves good environmental practices in line with current legislation.

We are striving to communicate this commitment to our staff, audience, stakeholders and suppliers.

This policy will be reviewed regularly by the Board and Chief Executive to ensure that this policy is integral to the operating practices of the Organisation.

We will:

Reduce and recycle our office waste

Recycle all parts of sets & costumes where feasible

Reduce our energy consumption and increase our energy efficiency

Encourage the use of the most energy efficient transport and to always be sharing journeys

Purchase products and services which do the least same to the environment, where possible and encourage others to do the same

Aim to reduce our marketing printed material and ensure that anything printed is produced on 50% recycle paper stock

To seek ways to increase our digital marketing methods, communication and operation

Maintain membership of Creative Carbon Scotland and the Green Arts Initiative

Seek to maximise our current resources

Seek to minimise our overall carbon footprint through the use of public transport, only undertaking necessary travel (using skype/email etc when possible) and when driving, taking as many passengers as possible in one vehicle

To always have a Green Champion for Visible Fictions

Record our touring travel emissions and monitor them
